JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

Disinterred bodies will not be accepted for transportation unless said removal shall be approved by the State board of health and the consent of the health officer of the locality to which the corpse is consigned has been obtained.

[Reports to the Supervising Surgeon-General United States Marine-Hospital Service.]

Smallpox in Albuquerque, N. Mex., and vicinity.

ALBUQUERQUE, N. MEX., *September 4, 1898.*

SIR: My failure to make weekly report was due to sickness. In former report, number of cases should have been 44 instead of 40, as I have since discovered that where 1 case of smallpox had been reported there were 4 others not reported. Since then we have had 2 cases occurring outside city limits, which we removed to pesthouse, and 6 cases occurring within city limits, making a total of 52 cases.

At present there are 3 in the pesthouse and 3 within city limits. Of these, 2 and possibly 3 will be discharged during the week.

Very respectfully, JNO. ROGER HAYNES,
City Clerk.

Smallpox at Put in Bay, Ohio.

COLUMBUS, OHIO, *September, 6, 1898.*

SIR: Smallpox developed among the servants at the Victory Hotel, at Put in Bay, Ohio, about the middle of August. Up to the present time there have been 26 cases; 21 of the patients being negroes. Most of these negroes had been brought to the hotel from Asheville, N. C. Proper precautions are now being taken to prevent spread of the disease.

Yours, truly, C. O. PROBST, *Secretary.*

Smallpox in the United States as reported to the Supervising Surgeon-General United States Marine-Hospital Service, January 1 to September 16, 1898.
